Departmental Seminar Library

The departmental seminar library in Sanskrit provides students with a dedicated space for in-depth study, research, and collaborative learning. It enabling students to delve deeper into Sanskrit literature. This space cultivates an environment conducive to scholarly discussions and facilitates a deeper understanding of the language's nuances and cultural significance.

Development of Environmental & Scientific Awareness

Various books of Sanskrit literature are full of environmental and scientific knowledge. In fact, Sanskrit acharyas were aware of the protection of nature can be inferred from Vṛkṣāyurveda. Also, Rasāyaṇa Śāstra books like Rasaratna Samucchaya are full of scientific knowledge.

Certainly! Here's a Sanskrit verse promoting environmental and scientific awareness:

पृथ्वी संरक्ष्यतां यत्नेन विज्ञानं परिपाल्यताम्।

प्राकृत्यं सम्प्रदर्श्यतां सृष्टिरक्षार्थं करोतु नः ॥

This translates to:

"Let the Earth be protected diligently, let science be nurtured. Let nature be understood deeply, for the sake of safeguarding creation."
